II. UWW:

We discussed a draft of a report crafted by John B. concerning the closing of UWW. FEC agreed on the importance of a historical record of the process and its potential usefulness for deliberations and decisions by future FEC members. There was a lengthy discussion concerning the question of whether or not the current FEC should offer a point of view on the process and/or make recommendations about this process in this document. This discussion will continue.

III. Round IV WTS

We reviewed a draft of the Round IV WTS prepared by Natalie T. Questions concerning how Appointments are dealt with- solicit names of candidates willing to serve- and give the names to the President? Does FEC have a role in approving certain candidates.
