Jeremy Day-O'Connell, Music (Spring 2017 replacement)

The Curriculum Committee has been asked to consider several proposals to establish *certificate programs* at Skidmore. We thought it best to work through the policy implications of certificate programs with CEPP prior to taking any action on these proposals. Since CEPP has (understandably!) been busy this year, the joint CC/CEPP conversation about certificate programs did not start until the end of the academic year. CC anticipates that this conversation will continue at the beginning of the Fall Semester.

In addition to the work of the full committee, the routine-matters subcommittee (Corey Freeman-Gallant in the Fall, Ron Seyb in the Spring, David DeConno, and the Chair of CC) responded to many routine matters. (Routine matters include deleting courses no longer being offered, minor changes to existing courses, changes to prerequisites, and the like.)

This year, the Registrar's Office implemented Curriculog, a new software package to help manage curriculum changes. The software is an improvement on the Word-document system we used up until this year, which required a fair bit of file management by the Chair of the Committee to keep up with revisions to the proposals and t18(h)8ETBT2467.3.23 Tm( y)7(ea6( an)5(d )2(i)2502021ToJE07trovBT(t
