IPPC-CEPP: Resolution of Appreciation  
Skidmore Master of Arts in Liberal Studies Program

Resolution

Whereas, since its inception June 1991, the Skidmore Master of Arts in Liberal Studies Program has provided access to graduate studies for many working adults, modeling an inclusive, diverse, creative, flexible, liberal arts based education for non-traditional students, and has fostered unique interdisciplinary collaborations and innovative learning opportunities for Faculty and students, thus furthering the mission of the College by promoting the transformative power of liberal learning;

Whereas, those persons who have served as deans, administrators, program assistants, advisors, instructors, and students in the program have made distinct contributions to the vitality, diversity, and intellectual life of the College over the last twenty four years;

Be it resolved that the Skidmore Faculty wish to record its appreciation for this noble educational endeavor and its thanks for your participation in this innovative academic program.
